

HELPING YOU

Aqua-Sol Ingredients, with support from our partners, are able to offer our clients outstanding technical advice and assistance. We have extensive in-depth knowledge of thickening, gelling and stabilising in a number of industries. We can provide tailor-made solutions for our customers according to their needs.

We are proud of our reputation for friendly and flexible service. We work hard to develop relationships with our customers and to understand their business. Through our personal approach and commitment, our clients know that they can rely on us.

The following is an extensive but not exhaustive list of products we are able to supply.

HYDROCOLLOIDS

- Sodium Carboxymethyl Cellulose (SCMC, CMC, Cellulose Gum, E466)
- Hydroxyethyl Cellulose (HEC)
- Methyl Cellulose (MC)
- Hydroxypropyl Methyl Cellulose (HPMC)
- MCC - Microcrystalline cellulose powder
- Cellulose Fibre
- Guar Gum 3500 & 5000 cPs (gelling agent, ground seeds of the guar plant)
- Gum Arabic (natural thickener, vegetable juice of acacia)
- Locust Bean Gum (gelling and thickening agent, ground seeds of the carob tree)
- Sodium Alginate (gelling agent, extract from brown algae)
- Pectin (gelling agent, extract from citrus fruits)
- Wheat, potato and maize Starch

Fermentation thickeners are used for various industries from industrial to food including cement-based dry mortars etc.

- Xanthan Gum (gelling agent obtained from sugar-containing substrates) for both food and industrial applications 40, 80 & 200 mesh
- Specialist Xanthan Gums working in low to high pH
- Diutan/Gellan Gum (gelling and thickening agent produced by microorganisms on sugar-containing culture media)

GENERAL CHEMICALS

- Acetic Acid (Various strengths)
- Ascorbic Acid
- Caustic Soda Liquor (Various strengths)
- Caustic Soda Pearl/Microppearl/BP Pellets
- Citric Acid Anhydrous/Monohydrate/Solution
- EDTA
- Glycerine
- Hydrogen Peroxide (Various strengths)
- Maltodextrin
- Potassium Bicarbonate [T] [FG]
- Potassium Carbonate
- Potassium Chloride [T] [FG] (USP)
- Potassium Nitrate [FG]
- Potassium Sorbate
- Salt (PVD & Industrial)
- Soda Ash Light/Dense
- Sodium Acetate
- Sodium Ascorbate
- Sodium Bicarbonate [T] [FG] (Ph Eur) (FEMAS)
- Sodium Gluconate
- Sodium Hexametaphosphate [T] [FG]
- Sodium Lauryl Ether Sulphate
- Sodium Lauryl Sulphate Needles/Flake/Liquid
- Sodium Perborate Tetrahydrate
- Sodium Percarbonate
- Sodium Persulphate
- Sodium Sulphate Anhydrous
- Sodium Sulphite Anhydrous [T] [FG]
- Sodium Tripolyphosphate Powder & Granular
- Sorbic Acid
- Sorbitol 70% Solution & Powder (FEMAS)
- Sulphamic Acid
- Surfactants (Anionic, Cationic, Non-ionic)
- TAED various colours
- Tetra Potassium Pyrophosphate [T] [FG]
- Tetra Sodium Pyrophosphate [T] [FG]
- Trisodium Citrate

[T] Technical [FG] Food grade

If the product you are looking for is not on the above list, please feel free to contact us.

We have been trading as Aqua-Sol Ingredients Ltd for over 10 year which, along with our 30 years industry experience prior to this, has enabled us to build up an extensive network of suppliers who we trade with on a regular basis and we maybe able to source the product you are looking for.
